Permanent Address
Tower 13 1103, L&T Raintree Boulevard,
Next to GKVK, Bellary Road,
Byatarayanapura, Bangalore-560092

Objective

To secure an internship that will expand my knowledge and experience in Computer Science and/or in Game Design and Development.

Education

B.S, Computer Science — **Michigan State University**, East Lansing, MI
Additional Major in Games and Interactive Media

Computer Science Courses:

- CSE 231 – Introduction to Programming I (Python)
- **CSE 232 – Introduction to Programming II (C++)**
- CSE 320 – Computer Organization and Architecture (Assembly)
- **CSE 331 – Algorithms and Data Structures (Python)**
- **CSE 335 – Object-Oriented Software Development (C++)**
- **CSE 325 – Computer Systems (C, Linux, Systems Programming)**
- CSE 425 – Intro to Computer Security
- **CSE 440 – Introduction to Artificial Intelligence**
- CSE 472 – Computer Graphics (OpenGL)
- **CSE 476 – Mobile App Development (Java)**
- **CSE 480 – Database Systems (Python, SQLite 3)**
- CSE 498 – Collaborative Design (Capstone Course)

Games and Interactive Media Courses (Game Development Focus Area):

- CAS 117 – Games and Interactivity (Unity, C#)
- **CAS 116 – Media Sketching & Graphics (Krita)**
- **MI 231 – Game and Interactive Media Development (Unity, C#)**
- **MI 332 – Game Interface Design (Figma)**
- **MI 482 – Building Virtual Worlds (Unity XR, Meta SDK, C#)**

Course Related Projects

- Union Pacific Training Simulator using GPS-Indexed Video (CSE 498)
  - Replaced Union Pacific's legacy simulation with a GPS-indexed video system to improve route familiarity for locomotive engineers.
  - Built using Unity, C#, and .NET Core, integrating real-world GPS data to sync video playback with geographic locations.
  - Received MSU Design Day's **Auto-Owners Exposition Award**. (Link)
- Unity Game Projects (MI 482)
  - Designed and developed multiple Unity-based games including VR Peggle , Channel The Panel , and Slaughter House for Oculus Quest 2.
  - Focused on C# Scripting, level design, UI development using Unity XR toolkit, Meta SDK, Blender and Krita across team-based projects.

Experience

Game Design Intern — Inverted Prism, India

- Collaborated with a team of 5 to develop a game using Construct 2 game engine, focusing on prototyping and asset development.

Undergraduate Learning Assistant (CSE 102: Algorithmic Thinking and Programming) — Michigan State University, MI

- Collaborated closely with the lead instructor and a team of fellow teaching assistants to support the
- learning process of beginner Python students.
